RESPONSE TO AMENDMENT

Request for Continued Examination

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on September 14, 2009 has been entered.
2. Claims 5, 6, 9, 13-16 and 18-21 are pending in the application, claims 1-4, 7, 8, 10-12 and 17 have been cancelled.
3. Amendments to the claims, filed on August 12, 2009, have been entered in the above-identified application.

REJECTIONS

4. **The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.**

Claim Rejections - 35 USC § 112

5. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

6. Claims 5, 6, 9, 13-16 and 18-21 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. In the instant case amended claims 5, 6, 9 and 13 contain(s) the limitation "a chromium layer" The specification does not disclose that the structure comprises a chromium layer and a chromium oxide layer in combination, therefore this limitation is considered new matter. Furthermore, Applicant's background of the invention states that they are not doing a dual layer chromium coating to save on cost, page 2, lines 20-24. The new matter must be deleted.

ANSWERS TO APPLICANT'S ARGUMENTS

7. Applicant's arguments in the response filed August 12, 2009 regarding the previous rejections of record have been considered but are moot since the rejections have been withdrawn.
